DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sugiura et al. [US 5,160,116].

Sugiura et al. disclose an actuator [figure 1] comprising:

- a frame [41] having a longitudinal axis;
- a bobbin [43] disposed in the frame with a central cavity;
- a coil [44] wound on the bobbin for producing a magnetic field in at least the central cavity in response to a control signal applied thereto; and
- a magnetic plunger assembly [50] movably disposed in the central cavity having a plunger portion secured to a rod portion.

Allowable Subject Matter

Claims 12-17 are allowed.

Claims 2-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
